# TSconfig Pages and Users by extManager

Configure the TSconfig for your pages and users with the mouse! tsconf offers the eight most commonly used porperties like page tree uids, activated extended view, activated clipboard, activated admin panel and cache management for editors among others. Add your own icons to the page tree.

Version: 6.2.0, 2015-10-06

Extension Key: tsconf

Language: en

Keywords: forAdmins, forDevelopers, forBeginners, forAdvanced

Illustration 4: 66 icons are available for the TYPO3 page tree

You can add your own icons. See "Own Page Tree Icons" on page 9 below.

Introduction

What does it do?

This extension offers some TS default configurations for pages and users. It offers page tree icons too.

You can enable and disable 12 configuration options:

All backend users should

- have an AdminPanel by default
- be able to clean the TYPO3 general cache
- be able to clean the TYPO3 system cache (from TYPO3 version 6.2)
- will see a page tree with uids
- have activated [Extended view], [Display thumbnails] and [Show clipboard] in all forms of the module "file list"
- will see include static templates with place upto 40 items and enhanced width

Images

- Enhance the maximum limit of the image property columns (imagecols) from 7 to 12.
- Enable the cutting of images.

All pages should display

- a reduced menu in the modul web pages: without the items Quick Edit and Page Information
- forms for pages without the fields alias and content from pid
- forms for content with four headers only and a proper translation
- have activated [Extended view] and [Show clipboard] in all forms of the module "web list"

The extension offers page tree icons for the groups

- application
- device
- dialog
- emblem
- flag
- folder
- game
- jQuery
- library
- system
- TYPO3

Last but not least you can add own icons.

The extension enhances the pagetree context menu with the items

- exclude form search
- hide in menu

Install

Install this extension.

Configure pageTS

Configure the default page TS with the extension manager.

Configure userTS

Configure the default user TS with the extension manager.
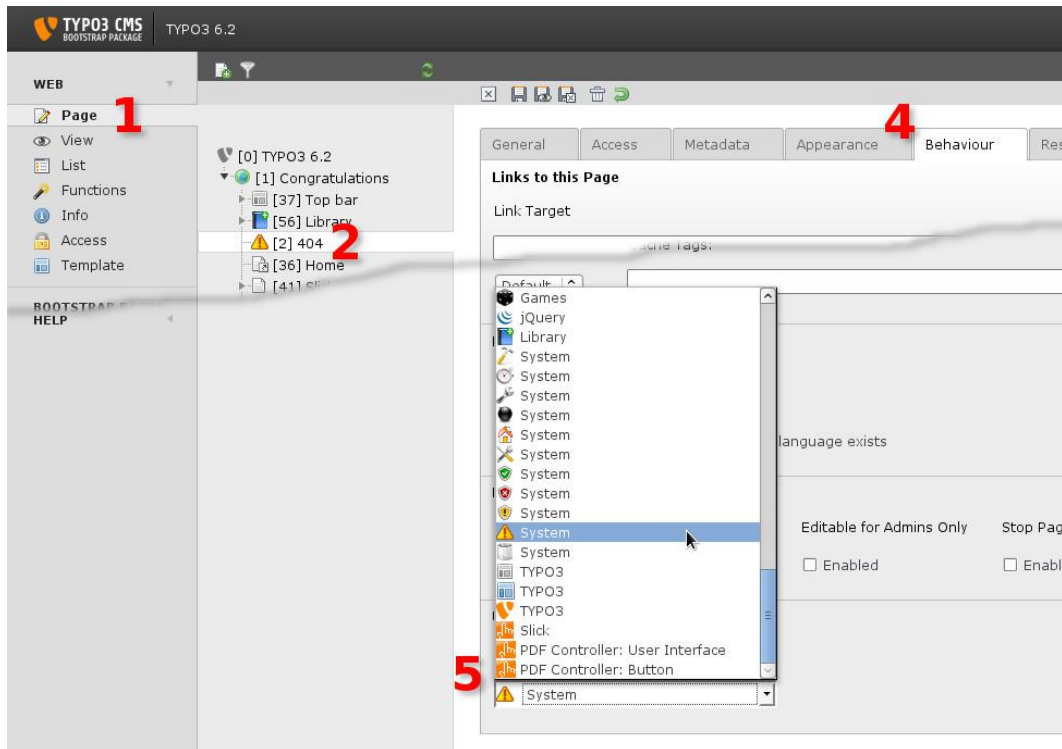

Page tree icons

Illustration 5: Alert icon as page tree icon (2)

You can change the sysfolder default icon to a template icon like in the illustration below (2).

If you like the TypoScript template icon as a page tree icon, please follow this steps:

1. Modul web > page
2. Page tree: select the page with your TypoScript templates
3. Edit area: edit the page properties
4.   select the tab [Appearance]
5.   select in the field [Contains Plugin]: System (alert icon)
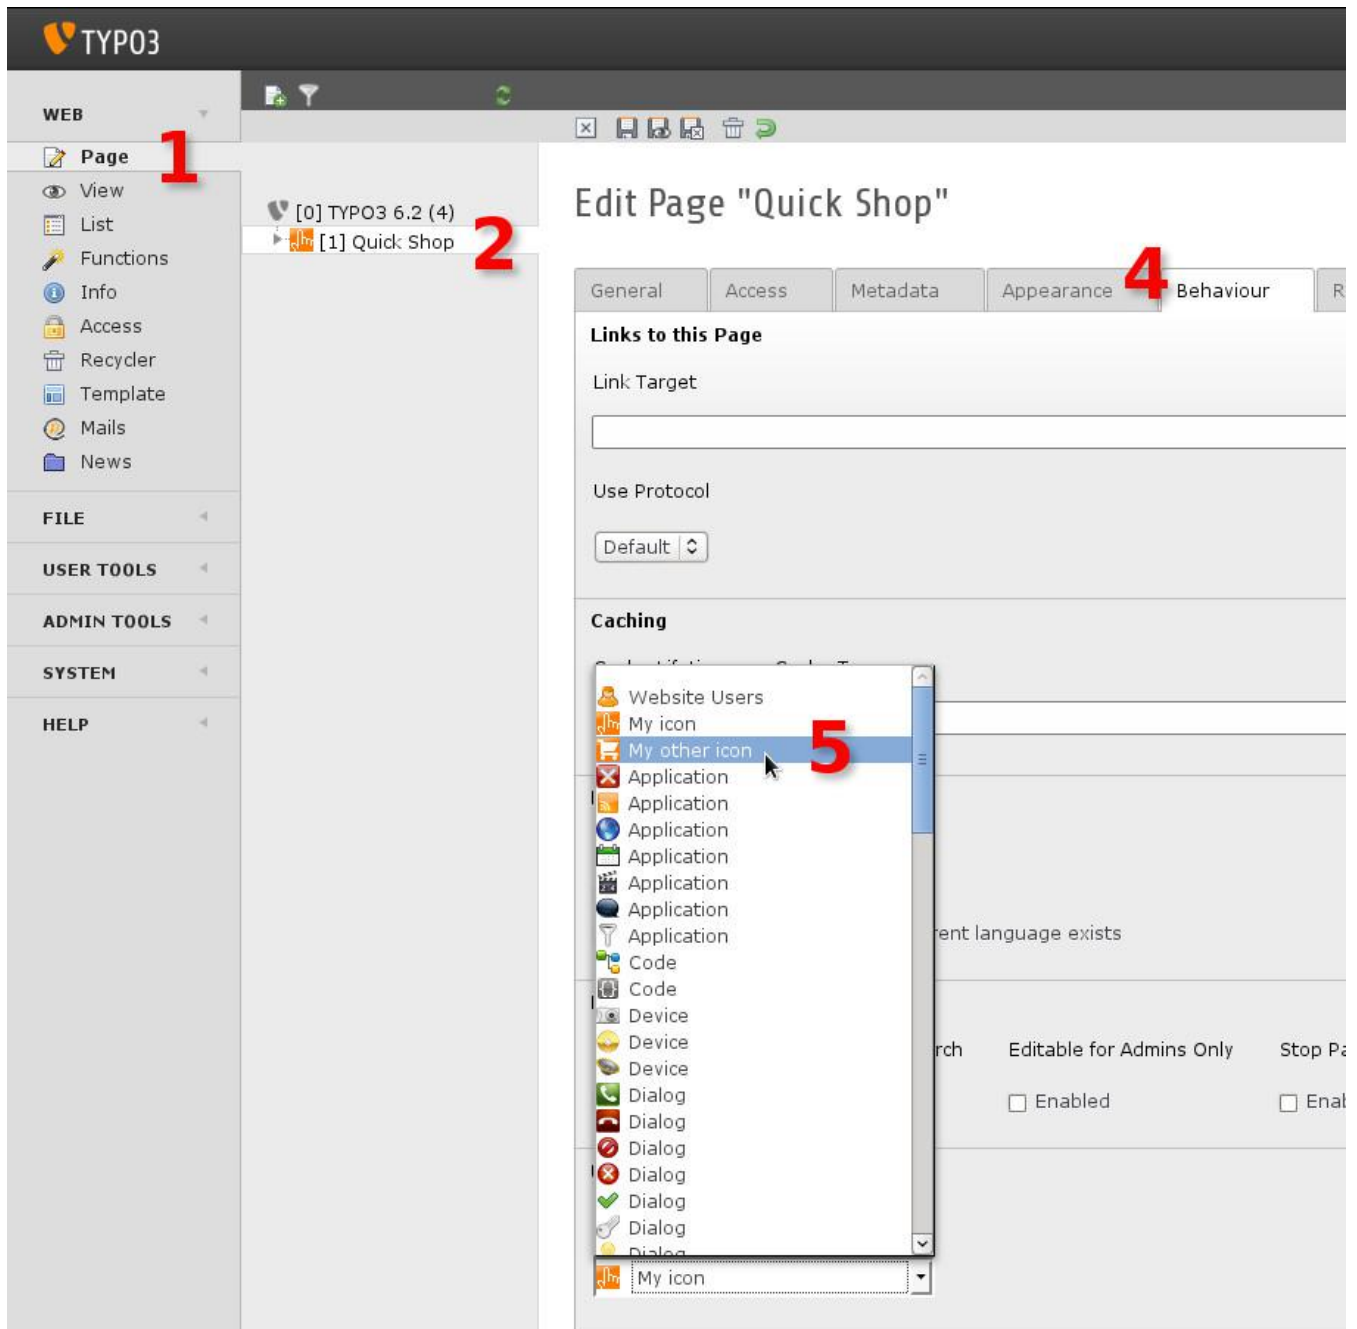

Own Page Tree Icons

Sample

Illustration 6: Add your own icons to the TYPO3 page tree!

You can add your own icons (5).

You have to copy a prepaired configuration file and adapt it to your needs. See the next section below.

Your Configuration File

1. Copy Resources/Private/myPageTreeIcons.php to fileadmin/mytsconf

    ```
    # cp typo3conf/ext/tsconf/Resources/Private/myPageTreeIcons.php fileadmin/mytsconf
    ```

2. Copy your icons to fileadmin/mytsconf
    In the sample below:

    *   fileadmin/mytsconf/my.gif

    *   fileadmin/mytsconf/myOtherIcon.gif

1. Adapt the properties to your needs.
    Be aware, that in the methods below the second parameter should not be longer than ten characters

    *   Proper: myOthIcon <- 9 characters

    *   Not proper: myOtherIcon <- 11 characters

Code Snippet

You have to adapt the variables in the code snippet below, which are marked red and bold.

```php
$myExtIconPath = t3lib_extMgm::extRelPath( $_EXTKEY ) . '../fileadmin/mytsconf/';

$TCA[ 'pages' ][ 'columns' ][ 'module' ][ 'config' ][ 'items' ][] = array(
  'My icon', 'myIcon', $myExtIconPath . 'my.gif'
);
$TCA[ 'pages' ][ 'columns' ][ 'module' ][ 'config' ][ 'items' ][] = array(
  'My other icon', 'myOthIcon', $myExtIconPath . 'myOtherIcon.gif'
);

switch ( true )
{
  case( $typo3Version < 6000000 ):
    t3lib_SpriteManager::addTcaTypeIcon(
            'pages', 'contains-myIcon', $myExtIconPath . 'my.gif'
    );
    t3lib_SpriteManager::addTcaTypeIcon(
            'pages', 'contains-myOthIcon', $myExtIconPath . 'myOtherIcon.gif'
    );
    break;
  default:
    TYPO3\CMS\Backend\Sprite\SpriteManager::addTcaTypeIcon(
            'pages', 'contains-myIcon', $myExtIconPath . 'my.gif'
    );
    TYPO3\CMS\Backend\Sprite\SpriteManager::addTcaTypeIcon(
            'pages', 'contains-myOthIcon', $myExtIconPath . 'myOtherIcon.gif'
    );
    break;
}
```

Extension Manager

Include your configuration file: Configure tsconf by the Extension Manager (1)

- Select the tab [my icons] (3)

- Field "Path" (4): Enter the path from this file
here: fileadmin/mytsconf/myPageTreeIcons.php

Illustration 7: Extension Manager (1): enter the path to your configuration file (4)
