Frontend

Organiser Installation

Check extension dependencies

- ✓ Browser - the TYPO3 Frontend-Engine (browser) is loaded.
- ✓ AOE link handler (linkhandler) is loaded.
- ✓ Organiser (org) is loaded.
- ✓ Powermail (powermail) is loaded.
- ✓ Shopping Cart for TYPO3 (wt_cart) is loaded.

Start the Installation

- Create a backend group
- Create a page tree
- Upload images and files
- Create page content
- Consolidating

Illustration 1: Install the Organiser – with one click!

Illustration 2: The start page after one click

Backend

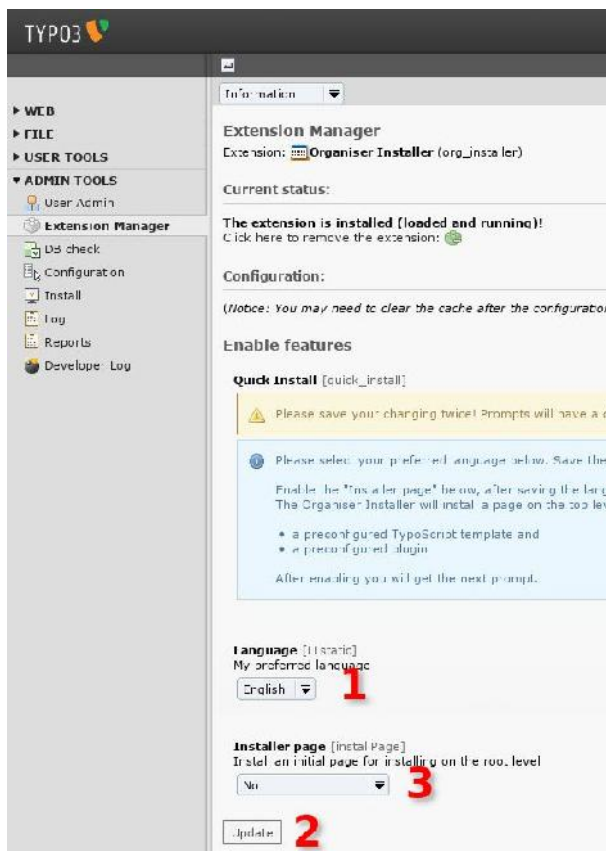

Illustration 3: Generate the installation page supported by the extension manager

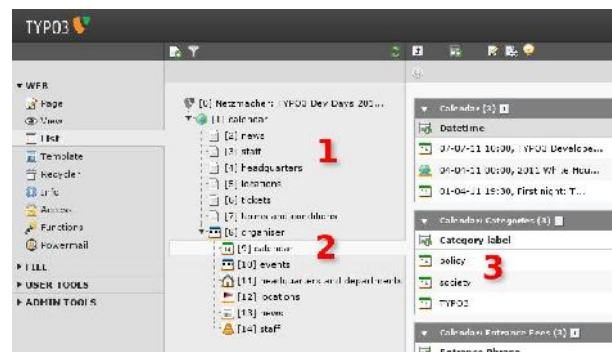

Illustration 4: Backend after the click in the frontend.

Introduction

What does it do?

- Organiser Installer is an installer only.
- Organiser Installer enables you to install the TYPO3 Organiser (org) out of the box. TYPO3 Organiser will be installed with AJAX automatically.
- Organiser Installer supports English and German. So you can install the TYPO3 Organiser in English or German.

What do you need?

- A TYPO3 installation only. The installation can be empty.

Audience

- TYPO3 integrators
- Professional TYPO3 developers and TYPO3 agencies, who doesn't want waste any time for manual installation.

Principles and preconditions

Principles

No needs for an empty TYPO3 installation

We are using a new TYPO3 installation for this manual. The new installation is empty of course.

But there isn't any need to take an empty TYPO3 installation. You are welcome to install the Organiser with this installer in every TYPO3 installation you want.

Preconditions

TYPO3 4.5 is recommended

TYPO3 4.5 is recommended. All used extensions are tested in 4.5 but not in versions older than 4.5.

You can use the Organiser in older TYPO3 versions too. But maybe some details won't be running proper. We don't know any problem in TYPO3 4.4.7.

Latest extensions

You are needing the latest extensions! This are

- browser 3.6.4
- org 1.0.0
- org_installer 1.0.0
- powermail 1.6.3
- wt_cart 1.3.0

Quick Installation

1. Install this Extension - Organiser Installer
2. Install the installer page with the extension manager. The page will have all needed configuration and content.
3. Configure the plugin Organiser Installer: activate the installation in the frontend.
4. Load the page in the frontend.
5. Click "Install it!"
6. Click "Reload!"

Installation

Information

Extension Manager

Extension: **Organiser Installer** (org_installer)

Current status:

The extension is installed (loaded and running)!
Click here to remove the extension:

Configuration:

(Notice: You may need to clear the cache after the configuration)

Enable features

Quick Install [quick_install]

Please save your changing twice! Prompts will have a chance for updating.

Please select your preferred language below. Save the language after the selection.
Enable the "Installer page" below, after saving the language.
The Organiser Installer will install a page on the top level of the site.

- a preconfigured TypoScript template and
- a preconfigured plugin

After enabling you will get the next prompt.

Language [LLstatic]
My preferred language

English

Installer page [installPage]
Install an initial page for installing on the root level

No

Update

Illustration 5: Extension Manager with loaded extensions

You have to save the form twice probably – prompts will have a chance for updating.

- If you like to change the language, please change the language (1) and update (2) the form.
- After saving the language enable the installation of the installer page (3) and update the form (2) again. You will get a prompt with some information.

Backend: install page

Enable the installation page in the frontend

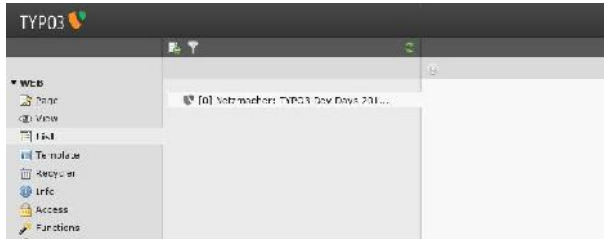

Illustration 6: Example with an empty TYPO3 installation

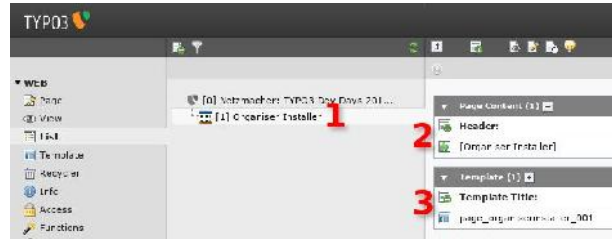

Illustration 7: The installer page after reloading the page tree

Please reload your page tree.

The Organiser Installer

- will be placed at the bottom of the tree (1)
- with the installer plugin and
- a ready TypoScript template

Configure the installer plugin

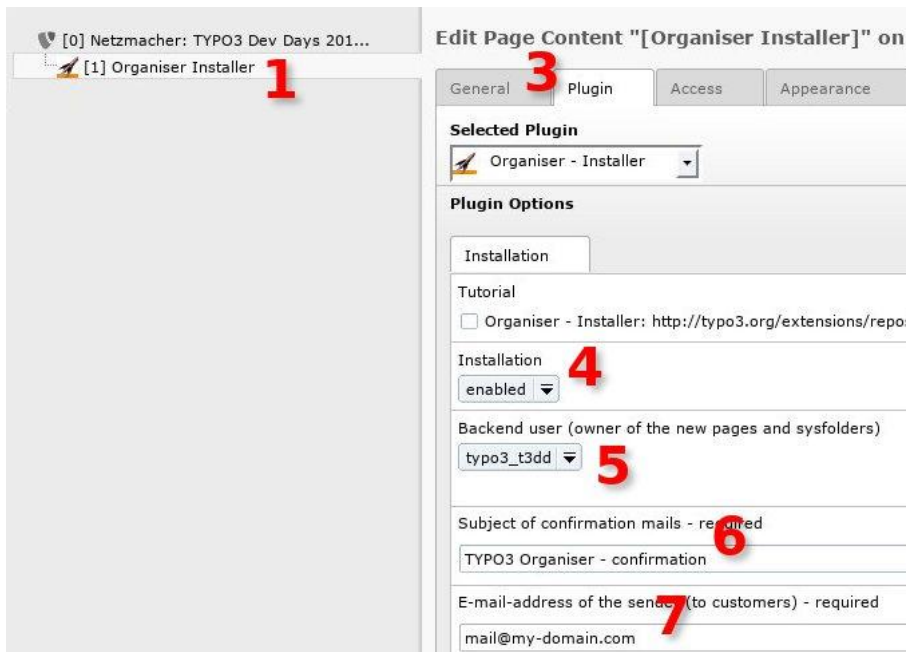

Illustration 8: The installer plugin

1. Current page is the Organiser Installer
2. Select the plugin
3. Select the tab [Plugin]
4. Set "Installation" to [enabled]
5. Select the backend-user, who will be the owner of all generated pages and sysfolders.
6. Edit the subjects for mails (you can change it later)
7. Edit the sender address for mails (you can change it later)
8. Save the form / plugin.

Visit the Organiser Installer in your frontend.

Language

The language of the installation process and the result depends on your current backend language.

Frontend: install page

Install the Organiser

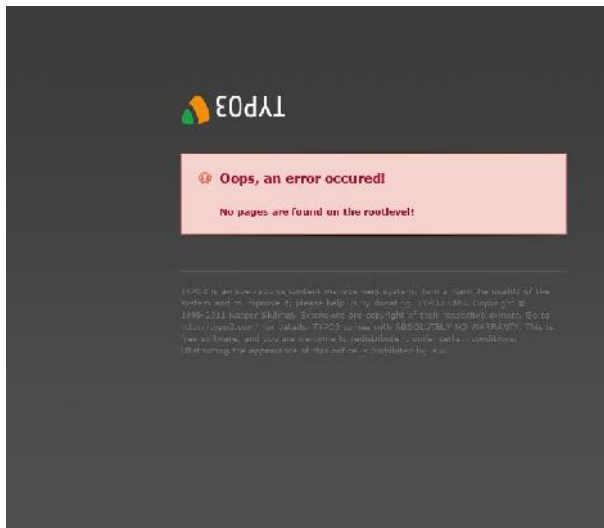

Illustration 9: Example with an empty TYPO3 installation

Organiser Installation

Check extension dependencies

- ✓ Browser - the TYPO3 frontend-engine (browser) is loaded.
- ✓ AOE link handler (linkhandler) is loaded.
- ✓ Organiser (org) is loaded.
- ✓ Powermail (powermail) is loaded.
- ✓ Shopping Cart for TYPO3 (wt_cart) is loaded.

Start the Installation

- 1 Create a backend group
- 2 Create a page tree
- 3 Upload images and files
- 4 Create page content
- 5 Consolidating

Start the Installation

1

Install it!

Illustration 10: The installer page after reloading the frontend

The illustration above on the left displays the frontend of an empty TYPO3 installation before installing the installer page. Reload the page in the frontend. You will receive the installer page (in the illustration on the right).

Dependencies and conditions

The installer will check dependencies and conditions.

If the installer expect trouble, you will get a prompt. Try to solve the problem.

Install it!

Install the Organiser:

- Klick [Install it!] (1)

Report

Organiser Installation was successful.

Check conditions

- ✓ Extension Organiser (org): "Store record configuration" is set to [Clear presented].
- ✓ PHP ini: memory_limit is 40M. This seems to be ok. But if you will receive an empty

Backend Group "organiser"

- ✓ Organiser Installer will give the group "organiser" (uid 6) the full access to all pages

Pages and Directories

- ✓ Page "news" (uid 2) is updated.

Finish the installation

- 1 TYPO3 backend: Please close the edit area and reload the page tree.
- 2 TYPO3 backend: Please delete the Organiser Installer, if you don't need it any longer

Finish the installation

1

Reload this page

Illustration 11: The installer page after reloading the page tree

You will receive an installation report. Read it or leave it.

Reload the page with the button at the bottom (1). See the result below.

The Organiser – short profile

This is a short profile only. If you are interested in the manual of the organiser, please visit:

- TYPO3 Repository
<http://typo3.org/extensions/repository/view/org/current/>
- TYPO3 Organiser
<http://typo3-organiser.de/>

Start page

The screenshot shows the 'Organiser Calendar' page. At the top, there is a navigation bar with links: [calendar](#) | [news](#) | [staff](#) | [headquarters](#) | [locations](#) | [tickets](#) | [terms and conditions](#). Below this is the 'Organiser Calendar' title. A search bar is present with a 'Search!' button. A filter section shows 'All categories' and 'Department'. A list of events is displayed, including 'TYPO3 Developer Days 2011' and '2011 White House Easter Egg Roll'. A sidebar on the left shows a calendar view for July 2011. At the bottom, there is a 'TYPO3 ADMIN PANEL' section. Red numbers 1, 2, and 3 are overlaid on the image to highlight specific features: 1 points to the event list, 2 points to the search bar, and 3 points to the navigation bar.

Illustration 12: Organiser after the installation

1. Sample content
Three events in the calendar.
2. A form for filtering and searching.
3. A navigation with all pages:
 - calender
 - news
 - staff
 - headquarters
 - locations
 - tickets
 - terms and conditions
4. Smart:
If an event is expired, it will get a different CSS class. And it isn't possible to order tickets.

The navigation (3) will be only added, if your are install the organiser on the top level.

Order a ticket

- Select an event.
- The form for ordering is at the bottom of an event, if the event isn't expired!
- Select a ticket (1) and order it (2).

First night: TYPO3 Organiser

TYPO3 - Thema

- Premiere: TYPO3 Organiser - die all in one Extension ([Click Here!](#))

Die Entwickler - die Netzmacher GbR - stellen den TYPO3-Organiser zum ersten Mal in der Öffentlichkeit am Beispiel mehrere Referenzseiten vor.

Mit dem Organiser kannst Du Deine Nachrichten und Veranstaltungen mit Ticket Verkauf mit einer einzigen TYPO3 Erweiterung verwalten - und darüber hinaus auch Dein Personal, deine Standorte und Veranstaltungsorte. Organiser ist die TYPO3-Erweiterung für Verbände, Veranstalter und Theater Betriebe.

Organiser hat auf Basis von TYPO3 Quick Shop einen flexiblen Web Shop integriert, mit dem Karten reserviert und auch gekauft werden können. Er kann leicht an andere Anforderungen angepasst werden.

- Website: typo3-organisier.de

P.S.: Barack Obama kann diesmal nicht kommen

Location: [Die Netzmacher GbR - Büro Erfurt](#)

Order a ticket 2

entrance free (0.00 EUR) 1 1 Into the cart

Price (w tax) 0.00 €

Thanks for your order. You will get an confirmation as soon as possible. Be aware: this is a demo site for the TYPO3 Organiser - any reservation hasn't any effect.

calendar | news | staff | headquarters | locations | tickets | terms and conditions

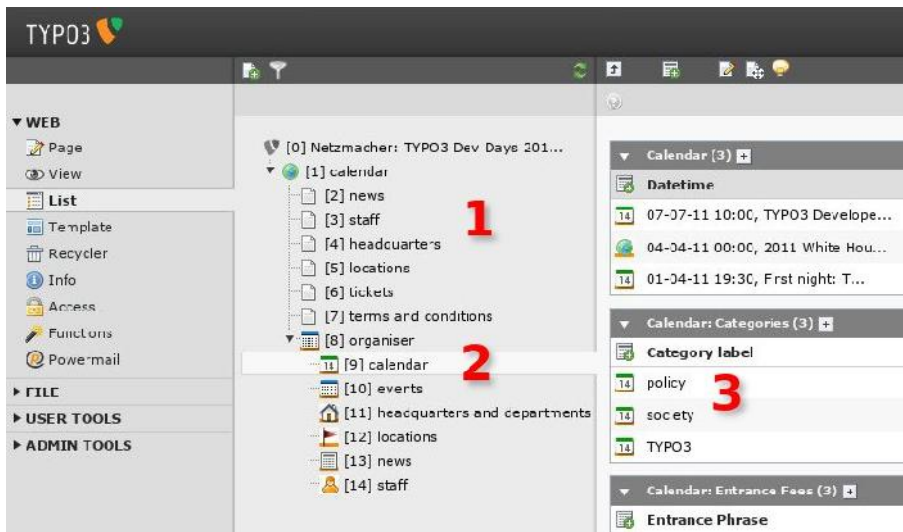

TYPO3 ADMIN PANEL: [typo3_001](#)

Illustration 15: Event in the detailed view (single view)

- You will get a confirmation mail.

Backend

Amazing – the Organiser Installer has installed a page tree with

- 8 pages (1) and
- 8 sysfolders (2)

Every page and every sysfolder contains content like plugins, TypoScript and records. You see the calendar items in the sysfolder calendar.

And if you will investigate it, you will find a lot of page configurations (tsConfig pages).

Repeat the installation

You may repeat the installation unlimited.

Deleting – care about MM tables

If you are delete the whole Organiser installation – pages and sysfolders – you have to empty the mm tables manually.

You can do the job with PhpMyAdmin.

SQL snippet

Be aware: You will loose all all relations between organiser records!

Truncate the mm-tables only, if you haven't any organiser records!

```
TRUNCATE `fe_users_mm_tx_org_news`;
TRUNCATE `tx_org_cal_mm_tx_org_calentrance`;
TRUNCATE `tx_org_cal_mm_tx_org_caltype`;
TRUNCATE `tx_org_cal_mm_tx_org_location`;
TRUNCATE `tx_org_department_mm_fe_users`;
TRUNCATE `tx_org_department_mm_tx_org_cal`;
TRUNCATE `tx_org_department_mm_tx_org_departmentcat`;
TRUNCATE `tx_org_department_mm_tx_org_news`;
TRUNCATE `tx_org_headquarters_mm_tx_org_department`;
TRUNCATE `tx_org_news_mm_tx_org_newscat`;
```

Helpful suggestions and benefits

Forum

If you have helpful suggestions, feel free to publish any question, bug or code snippet on

- TYPO3 Organiser forum at
<http://typo3-browser-forum.de/>

Posts are welcome in English and German.

Sponsoring

Do you like to subsidise the TYPO3 Organsier project? Please visit

<http://typo3-organiser.de/sponsoring/>

We would be very happy.

To-Do List

Nothing to do.

Further Information

Other extensions published by Die Netzmacher

-  Browser - the TYPO3-Frontend-Engine. The Browser is the fast way for your data to the TYPO3 frontend. It displays content from related tables. You need 1 line TypoScript for a result list with a search form, a record browser and an a-z browser. Images are wrapped self-acting. SEO, Search Engine Optimization, is integrated.
<http://typo3.org/extensions/repository/view/browser/current/>
-  Browser for BZD Staff Directory. List view and single view for the extension BZD Staff Directory. It is out of the box. You can edit the views by TypoScript. You can add fields and whole views.
http://typo3.org/extensions/repository/view/browser_bzdstaffdirectory/current/
-  Green Cars (Grüne Autos) - Database optimized for ecological cars. It is a case study and demonstrates, how to get a complex database with the browser (see above) in three hours only.
http://typo3.org/extensions/repository/view/green_cars/current/
-  Jobmarket is a catalogue with job offers. Views, the a-z-browser, the page-browser, the search, social bookmarks and a lot of other stuff can configured by the Browser plugin with the mouse. Job Market hasn't any PHP code, it should be easy to adapt it to your needs.
http://typo3.org/extensions/repository/view/job_market/current/
-  Juridat - Database for Juridical Data. Juridat provides a juridical data base with backend functionality. Juridat is out of the box. It is a teamwork with the Browser.
<http://typo3.org/extensions/repository/view/juridat/current/>
-  logical_form: A frontend plugin for evaluating forms. I.e you can evaluate mail addresses.
http://typo3.org/extensions/repository/view/logical_form/current/
-  Organiser provides a lot of features for handle news, events, staff, headquarters, locations, repertoire, workshops and a calendar. Sell your online tickets! Available from April of 2011
<http://typo3-organiser.de/>
-  Majordomo: For subscribing to and unsubscribing from a majordomo mailing list.
<http://typo3.org/extensions/repository/view/majordomo/current/>
-  Quick Shop (extkey: quick_shop): The fastest shop in the history of TYPO3. Install it with one mouse click only! Quick Shop is based on the browser (see above) and powermail.
http://typo3.org/extensions/repository/view/quick_shop/current/
-  seo_dynamic_tag: Search Engine Optimisation. You can generate values dynamically with this extension especially for the <title>-tag, for the <meta>-tag description and the <meta>-tag keywords.
http://typo3.org/extensions/repository/view/seo_dynamic_tag/current/
-  tt_news Marker (extkey: ttnews_marker) enables to add any marker to a tt_news HTML template including links. Any marker has the std_wrap property.
http://typo3.org/extensions/repository/view/ttnews_marker/current/
-  tt_news select configuration (extkey: ttnews_selectconf) enables to select tt_news by any SQL clause. The extension adds an andWhere clause to the SQL query of the tt_news plugin. I. e. it is possible to display tt_news items in dependence on the ownership of a fe_user.
http://typo3.org/extensions/repository/view/ttnews_selectconf/current/
-  Wine Catalogue provides a data base for wine with regions, wineries, styles, variety and ageing among others. It is localized. English, German and Spanish ist of the box. Wine based on the extension browser (see above).
<http://typo3.org/extensions/repository/view/wine/current/>
