

TYPO3 Extension "t3s_jslidernews" News & Content Slider

... only "Content Slider" in this version!

What does it do?

jQuery slider for tx_news, tt_content and pages with various plugins, styles and effects.

Users manual

Just install the Extension with the extension manager
and include the static TypoScript in your template.

Set the options in the „Constant Editor“ and the EM configuration.

Play with the slider options!
